## CONDITIONS OF CARRIAGE

The carriage of cargo within the Cook Islands is subject to the Carriage of Goods Act 1998 and the Air Rarotonga Limited Conditions of Carriage. Both of these documents are available for your inspection at our offices and we and you enter into a Contract of Carriage when you sign an Air Waybill to consign your goods.

All cargo (except fragile, valuables, and inadequately packed cargo) is carried at "Limited Carriers Risk". This means that should your goods be lost or damaged while under our care, Air Rarotonga, if liable, will pay up to a limit of \$1500 per unit of goods. The value of the goods will need to be proven.

If your goods are fragile (e.g. glassware) valuable (black pearls etc.) or perishables (such as frozen or chilled foodstuffs), we will ask you to sign the OWNERS RISK clause on the Air Waybill. This releases Air Rarotonga from liability for any damage except where we have intentionally caused damage to your cargo. Such cargo is carried at your own risk.

## A WORD ABOUT DANGEROUS GOODS

Certain items such as inflammable fluids, firearms, chemicals and paints, (even things such as hairspray) are subject to special packaging and handling requirements - and some may even be banned from carriage on aircraft. please ask our agent for advice when you intend shipping anything that may fall into this category.
